

Hello Double Angel Friends,

We hope you all are well, that you enjoyed the Fall Season, and are looking forward to the Holidays. We are fortunate that we will be able to spend the Christmas Season with our family.

Cole and Aimee added a baby boy, Liam, to their busy household. Now Raelynn will have a little brother and they are even going to have to add a bedroom or two to their home.

Connor and Sierra got married in Oregon in June. Sierra, having graduated Dental School one year ago, has joined a growing dental practice southeast of Portland. Now, they are in search of a home in the area.

Our partner at the Double Angel Ballpark, Gameday Baseball, continues to do a wonderful job keeping the ballfields busy and beautiful. Double Angel Foundation, once again, delivered many sports scholarships to deserving youth. We also were able to join BoatUS in increasing the awareness of Carbon Monoxide danger in the marine environment. They are a wonderful partner in this endeavor due to their national exposure.

Thank you for joining us in this important mission!

Blessings,
Ken & Bambi Dixey

The Double Angel fund supports youth baseball dreams with scholarships. These funds allow many students the ability to participate in organized sports when they might not otherwise be able to do so.

We all know the power of sports for students. From social skills, to emotional development, to goal-setting, and more, baseball/softball provides an amazing opportunity for us to invest in the next generation. We're proud to share we've been able to support 10 baseball/softball players in 2024 with over \$10,000 in scholarships provided.

"Softball has been my whole life since I was five years old. It has been my outlet when times have been hard. It has taught me to be a team player..."
 -Scholarship Applicant

Double Angel Foundation was also able to donate \$4,000 in practice balls to Parker Youth Sports!

Thank YOU for being part of this amazing work!

"Myself and the other coaches can't thank you enough for your support and please know that these resources are giving these boys and girls a great experience." - Brad Wright, Coach

CELEBRATING 13 YEARS OF GAMEDAY BASEBALL: BUILDING A LEGACY IN DOUGLAS COUNTY

As we gear up for 2025, Gameday Baseball is thrilled to celebrate our 13th year in business! Over the years, we've had the privilege of positively impacting tens of thousands of baseball players, their families, and the entire Douglas County community. Our philosophy, "Playing the game the right way," has been at the heart of our teaching approach from day one, and we are immensely proud of the success our players have achieved both on and off the field.

Gameday Baseball has become Colorado's premier club baseball organization and is now competing on a national stage as one of the best baseball clubs in the country. What started with a few teams and a vision to elevate competitive club baseball has grown into a robust organization focused on delivering top-notch coaching, player development, and facilities to the community. Today, we are proud to offer a wide range of opportunities for aspiring athletes. We operate over 20 youth teams and 12 high school teams, as well as year-round camps, clinics, private lessons, and more than 30 youth and high school tournaments annually. Our facilities play a key role in our success. Double Angel Fields, along with our 30,000 square-foot indoor sports complex, provide players with access to professional-grade spaces and equipment all year long. We are excited to continue expanding our programs and facilities to make an even greater impact through the game of baseball.

Visit us at www.road2gameday.com to learn more about our programs and see how we are helping shape the next generation of players!

CARBON MONOXIDE POISONING EDUCATION

Double Angel has partnered with BoatU.S. (www.boatus.com) and will make an annual donation to their cause

CARBON MONOXIDE POISONING

What you can't see can harm you

Carbon monoxide is a potentially deadly gas produced any time a carbon-based fuel, such as gasoline, propane, charcoal or oil, burns.

doubleangel.org

- Sources on your boat include gasoline engines, generators, cooking ranges and space and water heaters. Cold or poorly tuned engines produce more carbon monoxide than warm, properly tuned engines.
- Carbon monoxide is colorless, odorless and tasteless and mixes evenly with the air. It enters your bloodstream through the lungs and displaces the oxygen your body needs.
- Early symptoms of carbon monoxide poisoning — headache, nausea, weakness, and dizziness — are often confused with sea-sickness or intoxication. Prolonged exposure to low concentrations or very short exposure to high concentrations can lead to death.
- Each year, boaters are injured or killed by carbon monoxide. The illustrations below show how carbon monoxide could be accumulating.

Slow speeds or idling

All carbon monoxide poisonings are preventable!
